Fixed Abrasive Wheels

In cooperation with wheel manufacturers worldwide, Stahli USA designs, tests, and builds fixed abrasive flat honing and fine grinding wheels.

Stahli USA's laboratory tests the latest developments in super abrasive technology on a daily basis. We have ongoing contract work as well as research and development projects. Our work includes the utilization of resin bond, vitrified bond, metal bond and hybrid products. With the rigidity and speed capabilities of the Stahli designed DLM and FLM machines, we can now take advantage of the expansion in wheel development.

YOUR CHALLENGE IS OUR SPECIALTY!
Fine Grinding, Flat Honing, Lapping and Polishing

STÄHLI
FEELING FOR FINISHING

PRODUCT SELECTION

Diamond — Available crystal sizes
3 micron up to 151 micron

cBN — Available crystal sizes
3 micron up to 151 micron

Bonds Available

- Resin
- Cold Pressed Vitrified
- Hot Pressed Vitrified
- Metal Bond
- Hybrid

Wheels available for following machines

- | | |
|-----------------|---------------|
| • Peter Wolters | • Stahli |
| • Lapmaster | • Hahn & Kolb |

Stahli is a worldwide leader in the manufacturing of precision flat honing, lapping and polishing machines. Our name is synonymous with the highest standards of performance, power, automation, productivity and efficiency for customers in such diverse industries as automotive, electronics, aerospace and ceramics.

The dynamic design of our ultramodern machine line ensures precision and reliability. Stahli: always user-friendly; always environmentally sound.
